UPDATE 150: International Mail Service Updates Related to COVID-19

On March 30, 2021, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have provided updates to certain mail services:

- **Belgium UPDATE:** Bpost has advised that, given the impact of the third wave of the pandemic, the Belgian government announced a new lockdown from March 26 until at least April 25, 2021. Bpost is making every effort to ensure the continuity of all services and the delivery of letter post, parcels, daily newspapers and registered letters. However, the lockdown measures in place prevent full compliance with delivery times and collection of the addressee’s signature, which may result in processing and delivery delays for all types of items. Bpost will continue to provide its services according to safety guidelines, but all letter-post, parcel-post and EMS items requiring signature on delivery will, until further notice, be delivered against the postal worker’s signature in place of the customer’s presence.

- **Czech Republic UPDATE:** Česká Pošta s.p. has advised that the Czech Government has extended the state of emergency for an additional 14 days effective March 28, 2021. The processing and delivery of all types of inbound and outbound mail (letter-post, parcel-post and EMS items) will continue to be affected, and Česká pošta is unable to guarantee compliance with the agreed standards. As a result, force majeure remains in place and previously announced restrictions continue to apply.

- **Poland UPDATE:** Poczta Polska has advised that, owing to the severity of the current COVID-19 situation in Poland, the Polish Government has implemented a national lockdown effective from March 20 to April 9, 2021. Poczta Polska will continue to provide postal services in line with public health measures and other restrictions but will be operating with a reduced workforce. The processing and delivery of all types of inbound and outbound mail (letter-post, parcel-post and EMS items) will continue to be affected, and Poczta Polska is unable to guarantee compliance with the agreed standards.

Unless otherwise noted, service updates to a particular country do not affect delivery of military and diplomatic mail.

These service updates affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority Airmail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

UPDATE 120: International Mail Service Updates Related to COVID-19

On December 28, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have provided updates to certain mail services:

Israel UPDATE: Israel Postal Company has advised that, owing to the increasing number of people affected by the COVID-19 pandemic, the Government of Israel and the country's health authorities have declared a general lockdown for the whole country from December 27, 2020 until January 11, 2021 or a later date. Postal services will continue to function with restrictions and items normally requiring the addressee's signature upon delivery will continue to be handed over without signature. These measures will affect the processing and delivery of all types of services, including outbound and inbound letter post, parcel post and EMS, with an impact on quality of service. As a result, the previously announced restrictions regarding service standards and force majeure remain in place.

Thailand UPDATE: Thailand Post has advised that, in response to the recent increase in the number of COVID-19 cases, the Thai Government has declared special measures, placing areas in one of four categories depending on the level of severity. Samut Sakhon province has been locked down and declared a maximum control zone. Accessibility to affected areas is limited, and delays are to be expected in handling and delivery processes for all types of international postal services (letter post, parcel post and EMS), especially in Samut Sakhon (delivery office codes 74XXX). Signature upon delivery may also be suspended. Thailand Post is therefore unable to guarantee quality standards for any category of inbound and outbound mail until further notice.

Unless otherwise noted, service updates to a particular country do not affect delivery of military and diplomatic mail.

These service updates affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority AirMail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

Correos de El Salvador is, however, taking all possible measures for the execution of normal services.

Mongolia UPDATE: Mongol Post has advised that, owing to the increasing number of COVID-19 infections, the government has introduced further lockdown measures from December 23, 2020 to January 6, 2021. Ulaanbaatar city is fully locked down, however, Mongol Post is able to continue its activities. International air traffic is limited to charter and cargo flights only, with operations mainly confined to a few flights from Ulaanbaatar to Seoul. Mongol Post is accepting all types of mail.
to a reduced number of destinations to include the United States of America. It is also able to accept and deliver all types of inbound mail received via Seoul, but there may be some delays due to sanitization processes at the exchange office.

UPDATE 106: International Mail Service Updates Related to COVID-19

On November 18, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have provided updates to certain mail services:

Jamaica UPDATE: Jamaica Post has advised that the Government of Jamaica has extended the national curfew until December 1, 2020. Consequently, the force majeure previously announced continues to apply, with an impact on quality of service for all types of mail, including inbound and outbound letter-post, parcel-post and Express Mail Service (EMS) items.

Portugal UPDATE: CTT Correios de Portugal has advised that the Portuguese Government declared a new state of emergency on November 9, 2020, and will be reassessed every two weeks. During the state of emergency, the processing and delivery of all types of service will be affected, including inbound and outbound letter-post, parcel-post and EMS items. As a result, CTT Correios de Portugal is unable to meet its contractual obligations, particularly with regard to delivery times for letters, parcels and EMS items, standard rules for collection of signature on delivery, hand delivery, tracking of shipments (capture and transmission times), processing of cash on delivery, and insured items. Therefore, the situation of force majeure previously declared will continue to apply until further notice.

Unless otherwise noted, service updates to a particular country do not affect delivery of military and diplomatic mail.

These service updates affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority Airmail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

UPDATE 107: International Mail Service Updates Related to COVID-19

On November 13, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have provided updates to certain mail services:

Malta UPDATE: MaltaPost has advised that due to the ongoing Covid-19 emergency, inbound and outbound letter post, parcel post and Express Mail Service (EMS) services continue to be severely affected as airline connectivity to Malta is operating at a very limited capacity. This disruption is expected to continue until airlines resume normal operations and sufficient transportation capacity becomes available. Consequently, given the current state of affairs, MaltaPost cannot guarantee delivery standards and times. Delays in the processing and delivery of mail are also to be expected throughout the islands of Malta, and compliance with quality of service standards will continue to be affected by force majeure.

Slovenia UPDATE: Poštala Slovenije has advised that the Slovenian Government has extended the formal declaration of a national COVID-19 epidemic until mid-December. The processing and delivery of all types of inbound and outbound mail (letter-post, parcel-post and EMS items) will continue to be affected, and Poštala Slovenije is unable to guarantee compliance with the agreed standards. Therefore, the situation of force majeure previously declared will continue to apply until further notice.

Unless otherwise noted, service updates to a particular country do not affect delivery of military and diplomatic mail.

UPDATE 104: International Mail Service Updates Related to COVID-19

On November 12, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have provided updates to certain mail services:

Belgium UPDATE: Bpost has advised that the Belgian Government announced a new lockdown which will run from November 2 until December 13, 2020 or later. The lockdown measures in place may result in processing and delivery delays of all types of items throughout the country. Until further notice, all letter-post, parcel-post and Express Mail Service (EMS) items requiring signature on delivery will be delivered with the postwoman or postman signing in place of the customer (but in their presence). Additionally, bpost cannot currently accept letter-post or parcel-post items for destinations to which there is no transport capacity. The list of available destination countries is subject to change daily and may be obtained at news.bpost.be/en-corona.

Lithuania UPDATE: AB Lietuvos pastas has advised that the government announced a three-week nationwide lockdown from November 7 to 29, which may be extended. To eliminate customer interaction at the doorstep and meet physical distancing requirements, AB Lietuvos pastas has suspended the collection of a signature on delivery for letter-post items and, wherever possible, is directing mail to parcel lockers for contact-free collection. Courier items are still delivered to the door, but the last digit of the recipient’s ID document are recorded in place of a signature. These measures will affect the processing and delivery of all types of postal items. The usual service delivery standards still cannot be guaranteed, and force majeure remains in force.

Unless otherwise noted, service updates to a particular country do not affect delivery of military and diplomatic mail.

These service updates affect Priority Mail Express International®, Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority Airmail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

UPDATE 103: International Mail Service Updates Related to COVID-19

On November 10, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have provided updates to certain mail services:

Denmark UPDATE: Post Danmark has advised that, owing to new measures implemented by the Danish Government in seven municipalities to minimize the spread of COVID-19, delays to delivery services are expected in the affected areas from November 9 until December 3, 2020. Quality standards for all products will be affected by this situation of force majeure.

Israel UPDATE: Israel Postal Company has advised that the lockdown declared by the Israeli health authorities is gradually being lifted, and the restrictions have been eased. However, items normally requiring the addressee’s signature upon delivery are being handed over without signature. The inclusion of a mobile phone number on items will speed up the process, enabling an SMS to be sent to the addressee instead of a written notice. Inbound and outbound mail is being processed from and to all destinations, depending on availability of flights in both directions. As a result, force majeure remains in place.

The Domestic Mail Manual (DMM®) and DMM Advisories are available on Postal Explorer® (pe.usps.com)
Latvia **UPDATE**: Latvijas Pasts has advised that a state of emergency has been declared by the Government of Latvia effective November 9, 2020 and is expected to remain in force until December 6, 2020 or later. During the state of emergency, postal services will continue to function with restrictions and items normally requiring the addressee’s signature upon delivery will be handed over without signature. These measures will affect the processing and delivery of all types of services, including outbound and inbound letter post, parcel post and EMS. As a result, a situation of force majeure is again invoked with respect to quality of service until the situation returns to normal.

Mexico **UPDATE**: Correos de México has advised that the Mexican customs authority will be operating with a reduced workforce until January 2021. As a result, delays are to be expected in the delivery of all types of mail.

Sri Lanka **UPDATE**: Department of Posts has advised that, owing to a second wave of the COVID-19 pandemic, new measures aiming to prevent further spread of the virus have been implemented in Sri Lanka. These new measures will continue to impact delivery standards for letter-post, parcel-post and EMS items. The Department of Posts is thus not able to guarantee that it will meet the agreed standards. However, all mail items sent to Sri Lanka will be processed and delivered, subject to certain restrictions imposed by the government. As a result, the previously announced force majeure remains until further notice.

Unless otherwise noted, service updates to a particular country do not affect delivery of military and diplomatic mail.

These service updates affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority Airmail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

**COVID-19 CONTINUITY OF OPERATIONS UPDATE**

Effects on Requalification Efforts for Periodicals Publications

The Postal Service understands that the Periodicals industry continues to have a difficult time renewing requester and subscriber/paid publications due to the COVID-19 outbreak. To address this, in an April 2, 2020 Industry Update, we temporarily extended expiration dates of all legitimate requests for extension by legitimate subscribers for six (6) months, effective from January 15, 2020. Due to continuing issues with COVID-19, we are extending this temporary exception to the Domestic Mail Manual (DMM) 207.4.2 and DMM 207.7.6 mailing standards until October 31, 2020. This new temporary extension is available until October 31, 2020 to legitimate requesters or legitimate subscribers/paid publications. This new temporary extension includes renewals related to membership renewals. If it only applicable to legitimate subscribers and legitimate requesters who continued to receive the publications during this period.

This is a temporary exception to DMM 207.4.2 and DMM 207.7.6. Starting on November 1, 2020, this temporary exception to the DMM will no longer be in effect and the 3-year requester requirement and the paid subscriber requirement will apply.

Effects on Requalification Efforts for Periodicals Publications

The Postal Service understands that the Periodicals industry continues to have a difficult time renewing requester and subscriber/paid publications due to the COVID-19 outbreak. To address this, in an April 2, 2020 Industry Update, we temporarily extended expiration dates of all legitimate requests for extension by legitimate subscribers for six (6) months, effective from January 15, 2020. Due to continuing issues with COVID-19, we are extending this temporary exception to the Domestic Mail Manual (DMM) 207.4.2 and DMM 207.7.6 mailing standards until October 31, 2020. This new temporary extension is available until October 31, 2020 to legitimate requesters or legitimate subscribers/paid publications. This new temporary extension includes renewals related to membership renewals. It is only applicable to legitimate subscribers and legitimate requesters who continued to receive the publications during this period.

This is a temporary exception to DMM 207.4.2 and DMM 207.7.6. Starting on November 1, 2020, this temporary exception to the DMM will no longer be in effect and the 3-year requester requirement and the paid subscriber requirement will apply.

UPDATE 17: International Mail Service Disruptions Due to COVID-19

On April 7, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following country has suspended certain mail services:

Cayman Islands: The Cayman Islands Postal Service has advised that the suspension of all postal operations has been extended until April 20, 2020.

French Polynesia: OPT PF – FARE RATA has advised that it is currently unable to accept letter-post, parcel-post or Express Mail Service (EMS) items until national and international flights have resumed.

Malawi: Malawi Post Corporation (MPC) has advised that, owing the grounding of flights into and out of Malawi by its partner airline because of the COVID-19 pandemic, MPC is suspending international mail operations until further notice. MPC is therefore declaring a situation of force majeure. It is unable to guarantee outbound and inbound mail standards for all categories of mail (letter-post and parcel-post items).

Mongolia: Mongol Post has advised that all international flights to and from Ulaanbaatar are suspended until April 30, 2020, or later. Its international mail center will remain closed until May 1, 2020.

Samoa: Samoa Post has advised that the suspension of all postal operations has been extended until further notice. Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

The following countries have announced service disruptions:

Curaçao: Cpost International N.V. has advised that the Government of Curaçao has suspended all inbound and outbound international flights which is having a direct impact on service quality for both international inbound and outbound services. Cpost International is experiencing significant disruption to its daily operations and is therefore declaring a situation of force majeure and ceasing to accept letter-post and parcel-post items until sufficient transport capacity becomes available. It will continue to provide restricted postal services. This means that it is unable to guarantee delivery standards for letter-post, parcel-post and EMS items. Signatures will no longer be requested for any deliveries, and no proof of delivery can be provided until further notice.

Nepal: Nepal Post has advised that the lockdown has been extended until April 15, 2020. These measures have a significant impact on the collection, transmission and delivery of all postal products.

Portugal: CTT Correios de Portugal has advised that the state of emergency has been extended until at least April 17, 2020 and additional precautionary measures have been implemented. Registered mail is now deposited in mailboxes, with the exception of registered mail with associated special services. Instead of collecting the recipient’s signature, the mail carrier will ask for the recipient’s name, and will enter this information, followed by “CV19” or “Contingência”, in the signature field on the handheld device. Items subject to a delivery notice are now available for collection at post offices for a period of 15 working days. The situation of force majeure has been extended until further notice. Further, CTT Correios de Portugal is unable to dispatch postal items to many destinations. Please visit www.ctt.pt/transversais/alertas-envios-internacionais#fndtn-tab1 for up-to-date information on the countries concerned.

Togo: The Togo Postal Corporation has advised that the Togolese Government has declared a curfew and modified working hours. It has also suspended commercial flights to and from most other countries, restricted movements around Togo and closed land borders, and is promoting social distancing. These various measures will impact collection, transmission and delivery of mail. Consequently, the Togo Postal Corporation will no longer be able to fulfill its obligations in terms of mail processing standards, or guarantee quality of service for letter-post, parcel-post or EMS items, until the situation returns to normal. It is therefore declaring a case of force majeure for all categories of inbound and outbound mail, though it will carry on providing postal services as far as it is able to.

These service disruptions affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIPS®), International Priority Airmail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items. UPDATE 16: International Mail Service Disruptions Due to COVID-19

On April 6, 2020, the Postal Service received notification from the designated operator of Rwanda regarding changes in international mail services due to the novel coronavirus (COVID-19).

The National Postal Corporation (Iposita) has advised that the Rwandan Government has enforced measures aimed at combating the spread of COVID-19. These measures affect the country's postal services and will remain in force through April 19, 2020. While these restrictions are in force, Iposita will not be able to meet its normal obligations in regards to quality standards (e.g. delivery times). All passenger flights to and from Rwanda are suspended and the entire postal network has been shutdown since March 23, 2020. Additionally, the processing of physical and electronic inquiries is not possible during this time.

These service disruptions affect Priority Mail Express International® (PME), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority Airmail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

UPDATE 15: International Mail Service Disruptions Due to COVID-19
On April 3, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following country has suspended certain mail services:

Maldives UPDATE: Maldives Post has advised that the Government of the Maldives has decided to extend the measures adopted as a precaution against the spread of the global coronavirus (COVID-19) pandemic. Therefore, Maldives Post is suspending the processing of all inbound and outbound mail (letter-post, parcel post and EMS items) from March 19, 2020 to April 11, 2020. This will have a major impact on operations and, consequently, on quality of service for all types of mail. The disruption is expected to continue until the epidemic is over. Consequently, service delivery standards cannot be guaranteed, and a situation of force majeure has been declared.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

Until further notice, as a convenience for our customers, the Postal Service will continue to accept and process mail destined for the Maldives. This mail will be held within our network and will be delivered once mail service is restored.

The following countries have announced service disruptions:

Guatemala: The General Directorate of Posts and Telegraphs has advised that, as part of government measures to prevent the spread of COVID-19, it is operating with 50% of its normal staff until April 12, 2020 (subject to extension). All post offices have been closed, and only home deliveries are being provided by the reduced staff, with appropriate steps taken to protect employees and customers. These measures will result in delays to deliveries, quality of service for all types of inbound and outbound mails is affected, and service delivery standards cannot be guaranteed.

Italy UPDATE: Poste Italiane has advised that the Italian Government has decided to extend the measures aimed at minimizing the spread of COVID-19 until April 13, 2020.

Mauritius UPDATE: Mauritius Post has advised that the Government of Mauritius has decided to extend the sanitary curfew for at least two more weeks, i.e. until April 15, 2020. All post offices nationwide are closed and all classes of mail will be subject to delays. All inquiries, including those handled electronically through the Internet-based systems for parcel-post, EMS and registered items, are liable to be disrupted. Also, call agents may not be able to deal with telephone inquiries. To eliminate customer interaction at the door and in accordance with physical distancing requirements, Mauritius Post has suspended the collection of signatures on delivery of registered postal items, until further notice. Owing to the suspension and cancellation of many flights to and from Mauritius, severe delays for all outbound and inbound mails (letter-post, parcel-post and EMS) are to be expected until sufficient transport capacity becomes available. Therefore, quality of service for all types of inbound and outbound mail is affected, and service delivery standards, which fall under the already invoked case of force majeure with regard to quality of service, cannot be guaranteed until the situation returns to normal.

South Korea: Korea Post has advised that, owing to the suspension of flights, the processing of outbound mail destined to: Costa Rica, the Dominican Republic, Hawaii (United States of America), Iceland, the Netherlands, Portugal, Qatar, Turkey, Uganda and Zambia has been suspended from April 3 2020 (April 2 in the case of Qatar) until further notice. The current situation will also have repercussions in terms of quality of service for all types of inbound and outbound mail. Korea Post can no longer guarantee quality of service standards. It is therefore declaring a situation of force majeure for all types of postal services in relation to the suspension of outbound mail to the above-mentioned destinations until the situation has returned to normal.

These service disruptions affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPS®), International Priority AirMail® (IPAM®), International Surface Air Lift® (ISAL®), and M-Bag® items.

UPDATE 14: International Mail Service Disruptions Due to COVID-19

On April 2, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have announced service disruptions:

Estonia UPDATE: Estonian Post has advised that the Government of Estonia declared a state of emergency due to last until May 1, 2020. Estonian Post therefore wishes to inform its partners of some temporary changes to the services provided. Estonian Post can no longer guarantee the service delivery standards and is declaring a situation of force majeure.

Iceland UPDATE: Iceland Post has advised that it has suspended signature on delivery for inbound items as of March 19, 2020. Delivery will be conducted via methods that limit direct contact.

Slovakia UPDATE: Slovenská pošta has advised that special processes have been put in place for postal items subject to delivery, specifically as follows:

- Slovenská pošta has suspended the collection of a signature on delivery for inbound registered letter-post items. These are now placed in the addressee’s mailbox with no personal contact with the addressee, and the details are recorded in delivery books.
- Items that do not fit in the mailbox, or those with an unsuccessful delivery attempt, will be stored at the delivery post office for an extended period (32 days in total). A notification, including instructions, will be placed in the mailbox. The same applies to ordinary mail, including small packages.
- Inbound registered letter-post items with value-added services, such as delivery in person, written proof of delivery, the cash-on-delivery service or other additional payments etc. In such cases, deliveries have been suspended, and only a notification that the item is available at the post office will be provided (physical notification in the mailbox, or electronic notification by e-mail or SMS).
- Where a customer is in compulsory quarantine or has been diagnosed with COVID-19, the item will be deposited at the delivery post office for the extended storage period, and customers in quarantine will be able to wait until the quarantine is lifted.
- Parcels that would ordinarily require the addressee’s signature are still delivered to the door, but extra steps are taken to minimize interaction.
- Furthermore, as of April 1, 2020, Slovenská pošta is able to send mail (letter-post, parcel-post and EMS items) only to countries within the European Union (with the exception of Cyprus, Greece, Ireland, Malta and Spain), and to Belarus, Canada, Serbia, Switzerland, Ukraine, the United Kingdom and the United States of America. Slovenská pošta will continue to accept letter-post and parcel-post items sent to destinations for which transport capacity is available.

These service disruptions affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPS®), International Priority AirMail® (IPAM®), International Surface Air Lift® (ISAL®), and M-Bag® items.

UPDATE 13: International Mail Service Disruptions Due to COVID-19

On April 1, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have suspended certain mail services:

- **Botswana**: Botswana Post has advised that the President of Botswana has declared a state of emergency from April 2, 2020, until further notice. A lockdown of all the country’s services has been effective, except for essential services. In compliance with the lockdown, Botswana Post is therefore suspending all international mail operations, including the acceptance and processing of all inbound and outbound letter-post, parcel-post and Express Mail Service (EMS) items until April 30, 2020, or a later date announced by the government.

- **Fiji**: Post Fiji Ltd has advised that effective March 23, 2020, all international flights to and from Fiji are suspended until further notice. Post Fiji is therefore, experiencing significant disruption in its daily operations, which has led to suspension of collection and deliveries for all international letter-post, parcel-post and EMS items and services. Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

The following countries have announced service disruptions:

- **Argentina**: Correo Argentino has implemented health and safety measures to limit the spread of COVID-19. No letter-post, parcel-post or EMS items will require signatures upon delivery. Instead, the mail carrier will ask the addressee for a piece of ID and will record the number in the signature field. Owing to the cancellation of many international flights and diminished transportation capacity, Correo Argentino is unable to transport mail to an increasing number of countries. As a result, it has arranged for mail items addressed to foreign countries to be admitted on a conditional basis. These circumstances will affect the quality of service for all inbound and outbound mail. As such, Correo Argentino, has declared force majeure and will be unable to guarantee delivery service standards (e.g. delivery time).

- **Greece**: Hellenic Post (ELTA) has advised that, effective March, 30 2020, Hellenic Post will only be able to send – with delays expected due to limited capacity – letter-post and parcel-post items destined to:
  - Europe (EU and non-EU countries): Albania, Austria, Belgium, Bulgaria (Rep.), Czech Rep., Denmark, Finland, France, Germany, Great Britain, Hungary, Iceland, Italy, Latvia, Lithuania, Luxembourg, North Macedonia, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Sweden and Switzerland.
  - Rest of the world: Canada, Japan and Qatar.

  The above list is subject to change on a daily basis. A situation of force majeure is declared and the acceptance of letter-post and parcel-post items destined to all other countries (including the United States) is suspended with immediate effect, until sufficient transport capacity becomes available.

- **Japan**: Japan Post has advised that the coronavirus pandemic has caused many countries and territories to take measures such as ceasing to accept inbound international postal items, or significantly reducing or suspending flights to and from Japan. As a result, Japan Post’s transportation performance has significantly declined. Therefore, acceptance of international mail items (letter-post, parcel post and EMS) by air and S.A.L. for various countries and territories is being temporarily suspended effective April 2, 2020. Further details are provided on the Japan Post website at [www.post.japangpo.jp/en/information/2020/0401_02_en.html](http://www.post.japangpo.jp/en/information/2020/0401_02_en.html).

- **La Poste du Mali**: La Poste du Mali has advised that the Malian Government suspended of all commercial flights (other than cargo flights) and suspended. Currently, Post of Serbia is still dispatching and receiving letter-post items destined to all other countries (including the United States) is suspended with immediate effect, until sufficient transport capacity becomes available.

- **Serbia**: Public Enterprise Post of Serbia has advised that owing to the extremely difficult air transport situation, it is no longer able to dispatch postal items to the majority of destinations. The dispatching of all types of postal items to 186 international destinations has therefore been temporarily suspended. Currently, Post of Serbia is still dispatching and receiving letter-post, parcel-post or EMS items to and from the United States of America.

- **Thailand**: Thailand Post has advised that a state of emergency has been declared effective from March 26 to April 30, 2020 (or a later date that may be communicated in due course). There may be a severe impact on service quality for international inbound and outbound services, and service delivery standards can no longer be guaranteed. Moreover, owing to the suspension of flights from and to Thailand, and the resulting lack of transport capacity, Thailand Post is currently unable to send mail (letter-post, parcel-post and EMS items) to a growing number of countries. Please visit [www.thailandpost.co.th/un/article_detail/article/11/17151](http://www.thailandpost.co.th/un/article_detail/article/11/17151) for up-to-date information on the countries concerned.

- **Turkey**: Turkish PTTR Corporation has advised that numerous international flights have been cancelled, resulting in a lack of transport capacity. Consequently, Turkish PTTR Corporation is declaring a situation of force majeure with immediate effect, and delays are also to be expected for all other inbound and outbound postal items. These service disruptions affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority Airmail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® Items.

UPDATE: Zimbabwe Posts (Pvt) Ltd. (Zimpost) has advised that the President of Zimbabwe has declared a state of emergency for 21 days starting Monday, March 30, 2020, to curb the spread of the coronavirus (COVID-19). A lockdown of all services in the country has been effected, except for a few specified critical utilities that exclude postal services. In compliance with the lockdown, ZIMPOST is therefore suspending all operations (counter and mail services), including the acceptance and processing of all inbound and outbound mail (letters, parcels and EMS) until the end of the lockdown on Thursday, April 19, 2020, or any other date announced by the government.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

The following countries have announced service disruptions:

If the addressee cannot be contacted, or in the case of parcels addressed to businesses and other entities that are temporarily closed, items can be returned to sender after the first delivery attempt. Furthermore, in order to minimize the spread of COVID-19 and protect employees’ health by enabling processing by a single person, only parcels below 25 kg in weight, 120 cm in length and 150 cm for the three dimensions combined can be accepted. Parcels exceeding these weight and size limits will not be accepted until further notice. These restrictions do not apply to donations. Finally, owing to the increasing lack of transport capacity following the cancellation of numerous international flights, and further to the declaration of force majeure and the suspension of postal services in a number of countries, Poste Italiane is constantly updating its list of admitted outbound destinations. Efforts will be focused on urgent flows and the delivery of small packets able to help people during this confinement period. Therefore, La Poste is asking mailers worldwide to defer their non-urgent shipments to France and requesting that postal operators reduce the volume of despatches. For the same reason, La Poste will be unable to receive the following letter-post items; International Surface Airlift, M-bags, returns, and International Business Reply Service (IBRS).

Honduras: Empresa de Correos de Honduras (Honcador) has advised that it has extended the suspension of postal services until April 12, 2020, or a later date to be communicated in due course. The suspension affects imports of international mail at land and sea borders, and at Ramon Villeda Morales Airport in San Pedro Sula and Toncontin Airport in Tegucigalpa. Honcador therefore asks countries that normally send their mail to Honduras by air cargo flights not to do so for the time being to avoid mail being stored in customs warehouses, generating significant extra costs. An exception may be made for humanitarian aid, which Honcador is able to process with the knowledge and prior authorization of the Honduran Government. Honcador asks to be excused from delivery time requirements and compensation for late delivery of postal items until normal operations resume.

Kazakhstan: Kazpost JSC has advised that it has suspended the dispatch of all types of postal items to the following countries: Algeria, Australia, Azerbaijan, Brazil, Canada, Georgia, Hungary, India, Iran, Israel, South Korea, Kyrgyzstan, Malaysia, Moldova, Mongolia, New Zealand, Norway, Pakistan, Philippines, Qatar, Spain, Tajikistan, Turkey, Turkmenistan, United Arab Emirates, United Kingdom and United States of America. Dispatch and receipt of Express Mail Service (EMS) items weighing up to 11 pounds (5 kg) will, however, continue. During this time, quality of service, including delivery times and other quality standards, cannot be guaranteed.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

Furthermore, as a convenience for our customers, the Postal Service will continue to accept and process mail destined for the aforementioned countries. This mail will be held within our network and will be delivered once mail service is restored.

The following countries have suspended certain mail services:

**Coronavirus (COVID-19):** The Government of Lithuania has decided to extend the nationwide quarantine for at least two more weeks – until April 13, 2020 – in order to limit the spread of the novel coronavirus (COVID-19). To eliminate customer interaction at the doorstep, Lithuania Post has suspended the collection of signature on delivery for inbound letter mail items and, wherever possible, is sending parcels to parcel lockers for contact-free collection. Courier items are still delivered to the door, but the four last digits of the recipient’s ID are recorded in place of a signature. For this reason, service delivery standards cannot be guaranteed and Lithuania Post is therefore invoking a situation of force majeure with regard to quality of service, until the situation returns to normal.

**Nepal UPDATE:** Nepal Post has advised that the Government of Nepal has extended the suspension of all incoming international flights to Nepal until April 15, 2020, and the country is in lockdown until April 7, 2020. These measures are adversely affecting the collection, transmission and delivery of mail items. PostNord Sweden is therefore declaring a situation of force majeure with regard to quality of service, until further notice.

**Vatican:** Poste Vaticane has advised that it will carry on operating and provide its services as far as it is able to. The current situation will have repercussions in terms of quality of service for all types of inward and outward mail. Under these circumstances, Poste Vaticane will no longer be able to guarantee delivery service standards. Owing to insufficient transport capacity following the cancellation of many international flights, Poste Vaticane is currently unable to transport mail (letter-post and parcel-post items) to a growing number of countries. Poste Vaticane is therefore no longer accepting postal destined for the countries concerned until further notice. The list of destination countries affected is liable to change on a daily basis.

Suspensions will apply until sufficient transport capacities become available. Additionally, Deutsche Post has implemented physical distancing requirements: inbound items requiring a payment by the recipient, such as cash-on-delivery (COD) or the payment of customs duties and taxes, will be immediately directed to a postal outlet for collection. Recipients will receive a notification as to which postal outlet is holding their item for collection.

**Hong Kong:** Hong Kong Post has announced temporarily changes its delivery process for all items requiring signature on delivery. Effective, March 28, 2020, for letter-post, parcel-post and EMS items requiring signature on delivery, when performing at-the-door delivery, mail carrier will not obtain a signature from the recipient to reduce human interaction. However, domestic air, land and sea transport is suspended for the duration of the community quarantine (currently scheduled to run until April 12, 2020): • International mail processing centers will maintain a skeleton workforce in order to accept incoming international dispatches. Inbound items received up to April 12, 2020 will not be processed and forwarded to delivery post offices until the normal work schedule resumes (as from April 13, 2020). • There will be no outbound international dispatches from the international mail processing centers from March 17, 2020 until end of the community quarantine. • Outbound postal items received up to April 12, 2020 by post offices located in areas under community quarantine and in other areas of the Visayas and Mindanao islands will be processed and forwarded to destination countries upon resumption of the normal work schedule (April 13, 2020). Delays to inbound and outbound postal items during the community quarantine period. Detailed information on the areas covered by the community quarantine will be provided as soon as it is available.

**Senegal:** La Poste du Sénégal has advised that measures to close the borders and restrict travel have been implemented by the Government of Senegal and the airlines. These decisions will have significant impact on shipment and delivery times for letter-post, parcel post and packets. Consequently, La Poste du Sénégal is unable to guarantee compliance with delivery standards and is invoking a situation of force majeure with regard to quality of service. La Poste du Sénégal will continue to operate postal services inssofar as possible.

**Slovakia:** Slovenská Pošta, a. s., has advised that the Slovakian government has introduced measures including self-isolation, social distancing, advising people to work from home and restricting travel. Given these new measures, all inquiries, including those handled electronically through Internet-based systems for parcel-post, EMS, registered and tracked items, are liable to be disrupted. In addition, call agents may be unable to deal with telephone inquiries. Consequently, there may be a severe impact on service quality for international inbound and outbound services and service delivery standards. Slovenská Pošta is therefore invoking the force majeure and analogous provisions of all such standards, until the situation has returned to normal.

Special processes have been put in place for postal items subject to delivery, specifically as follows:
• Parcels that would ordinarily require the addressee’s signature can now be deposited in parcel terminals;
• Delivery of registered items is suspended and will only be notified. These items will be deposited at post offices and the customer will receive a notification (announcement to mailbox, electronic notification sent by e-mail or SMS);
• Slovenska Pošta has also extended by 14 days the current period of 18 days during which postal items will be stored at post offices.

Furthermore, Slovenska Pošta wishes to emphasize that, owing to the suspension of flights, it is currently unable to send letter-post, parcel-post and EMS items to countries outside the European Union and main and outside the European Union. Therefore, temporarily, Slovenska Pošta will no longer accept letter-post, parcel-post and EMS items for destinations to which transport capacities are unavailable.

**Spain UPDATE:** Correos y Telégrafos has advised that, owing to the suspension of flights from and to Spain, and the ensuing lack of transport capacity, it is currently unable to send (letter-post, parcel-post and EMS) items to an increasing number of countries both within and outside the European Union. As a result, Correos y Telégrafos is therefore declaring a situation of force majeure and ceasing, with immediate effect, to accept letter-post, parcel-post and EMS items destined for all concerned Union member countries, until sufficient transport capacity becomes available. Moreover, the Spanish Government has extended the state of emergency to the island of limitations declared on March 14, 2020, extended until April 11, 2020, in order to reduce the risk of the spread of the novel coronavirus (COVID-19). The state of alert may yet be extended again. This will have a major impact on operations and, consequently, on quality of service for all types of inbound and outbound letter-post, parcel-post and EMS items.

**Switzerland UPDATE:** Swiss Post has advised that it has changed its delivery process for all items requiring signature on delivery. Effective March 16, 2020, letter-post, parcel-post and EMS items requiring signature on delivery will not be signed for by the recipient. In place of the recipient’s signature, the delivery agent will enter a code in the signature field of the handheld device. This temporary measure will apply until further notice. As a result, Swiss Post is no longer able to guarantee inbound and outbound mail standards, and is therefore invoking a situation of force majeure with regard to quality of service and remuneration for all categories of mail item (letter-post, parcel-post and EMS items) until further notice.

**Turkey UPDATE:** Turkish PTT Corporation, has advised a period of leave has been declared for certain parts of its workforce, especially those in high-risk categories, in both the public and private sectors. This will have a major impact on operations and, consequently, on quality of service for all types of inbound mail (letter-post, parcel-post and EMS items). For this reason, service delivery standards cannot be guaranteed and a situation of force majeure has been declared until the situation returns to normal.

In order to minimize human contact, it will not be mandatory for to collect and provide written proof of delivery for letter-post, parcel-post and EMS items that would normally require a signature.

On March 19, 2020, the Postal Service™ received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have suspended certain mail services:

**Bulgaria:** Bulgarian Posts plc has advised that it is currently not able to send letter-post, parcel-post or EMS items to many countries inside and outside of the European Union, with the list changing on a daily basis. For this reason, Bulgarian Posts has ceased to accept any outbound EMS items destined to international locations. The company will continue to accept letter-post and parcel-post items sent to destinations for which transport capacity is still available. Customers should expect delays for all inbound and outbound mail until further notice.

**Cyprus:** Cyprus Post has advised that effective Saturday, March 21, 2020; all commercial flights to Cyprus are suspended for 14 days. Cyprus Post is therefore suspending all outgoing dispatches to international destinations. [Note: see below regarding change for mail destined to Cyprus.]

**Morocco:** Poste Maroc has advised that following the suspension of international commercial air traffic, it is suspending outbound letter-post, parcel-post and EMS items to international destinations until normal flight operations resume. [Note: see below regarding change for mail destined to Morocco.]

As a convenience for our customers, the Postal Service will continue to accept and process mail destined for the aforementioned countries. This mail will be held within our network and will be delivered once mail service is restored.

The following countries have announced service disruptions:

**Austria:** Österreichische Post AG has advised that it is currently unable to send letters and parcels to a constantly increasing number of countries both within and outside of the European Union due to the suspension of flights from Austria. Therefore, Österreichische Post AG has stopped accepting letter-post and parcel-post items for those destinations to where transportation is unavailable. Delivery standards and times can no longer be guaranteed until the situation has returned to normal. Additionally, all items that require the addressee’s signature are now deposited in the addressee’s mailbox or in a secure location on their premises, with signature by the mail carrier on their portable device. In cases where items are delivered to the recipient in person, the mail carrier will likewise sign on the recipient’s behalf.

**Belgium:** bpost has advised that operations will continue to operate normally as far as possible. However, several measures have been implemented to ensure the safety of both customers and staff, including the following:

- Post offices will remain open in general, but will be closed on Saturdays;
- For domestic and inbound international items that would normally require a signature, the mail carrier will sign for delivery in place of the customer (but in the customer’s presence);
- bpost is no longer able to guarantee delivery times, standard rules for signature on delivery, or availability of tracking data for shipments.

Furthermore, in common with many other postal operators, given the diminishing number of flights and reduced capacity, bpost is temporarily unable to send outbound international mail and parcels (letter post, parcel post and EMS) to destinations outside Europe.

**Cyprus:** Cyprus Post has advised that effective Saturday, March 21, 2020; all commercial flights to Cyprus are suspended for 14 days. Therefore, until further notice, all letter-post, parcel-post and EMS items destined to Cyprus will be sent by alternative transportation (e.g. surface). Customers should expect delivery delays.

**Djibouti:** La Poste has advised that Djibouti has suspended all international flights arriving in and departing from Djibouti, with the exception of cargo flights, until further notice. Therefore, delays are expected in the handling and delivery of letter-post, parcel-post and EMS items, until sufficient transport capacity becomes available.

**Finland:** Posti and Åland Post have advised that owing to a lack of transport capacity, they are currently unable to transport outbound letter-post, parcel-post and EMS items to many international destinations. Effective March 18, 2020, Posti and Åland Post will only be able to transport letter-post, parcel-post and EMS items destined for the countries listed below, with delays to be expected owing to limited capacity:

- All EU countries, with the exception of Cyprus, Greece, Ireland, Malta, Slovakia and Spain;
- Australia, Canada, China (People’s Rep.), Israel, Japan, Norway, Russian Federation, Serbia, Switzerland, United Kingdom and United States of America.

**France:** La Poste has advised that the French Government has reinforced the measures in place to limit the spread of COVID-19. La Poste’s network and national and international operational centres remain open and continue to operate. However, given the reduced workforce, La Poste can no longer guarantee delivery lead times, the collection of signatures on delivery, delivery to the addressee in person, tracking of items (scanning and shipment lead times), the processing of items for reimbursement, and insured items. This concerns in particular registered letters, tracked small packets with signature, parcels and EMS items. Additionally, numerous post offices are closed, and the opening hours of those remaining open have been reduced.

**Georgia:** Georgian Post has advised that the Government of Georgia has taken measures to reduce the spread of COVID-19. As these measures include the self-quarantine of staff, significant delays are to be expected in the delivery of all inbound letter-post, parcel-post and EMS items. Severe delays are also to be expected for outbound mail to all destinations, as a result of flight suspensions. Indirect delivery methods will be implemented temporarily for letter-post, parcel-post and EMS items that would ordinarily require the addressee’s signature. Consequently, it will not be possible for Georgian Post to collect and provide written proof of delivery.

**LIECHTENSTEIN:** Liechtensteinsche Post has advised that all letter-post, parcel-post and EMS items requiring a signature upon delivery are no longer being signed when handed over to the addressee. For such items, the mail carrier will leave a note in the signature field of the handheld device. This temporary measure will apply until further notice.

As a result, severe delays are to be expected in the processing, transport and delivery of both inbound and outbound letter-post, parcel-post and EMS items due to the suspension of postal services and various flight cancellations. Moreover, signature on delivery will no longer be required at the time delivery is made. Instead, the mail carrier will ask the recipient’s name and will record it on the delivery receipt.

**MEXICO:** Correos de México has advised that, owing to the cancellation of international flights it is facing significant disruption to its operations. Until further notice, only services to Canada and the United States of America will be maintained. Customers should expect delivery delays.

**Morocco:** Poste Maroc has advised that incoming mail has been processed and delivered as normal. However, delivery services may suffer certain delays, because of limited staff in processing and delivery centers. Postal parcels, EMS items and registered mail are being delivered without the addressee’s signature being requested. For such items, the mail carrier will address the addressee for their identity card number and record it. This exceptional March 17, 2020, and will remain in effect until further notice.
