French Polynesia UPDATE: OPT PF – FARE RATA has advised that it is currently unable to accept letter-post, parcel-post or Express Mail Service (EMS) items until national and international flights have resumed.

Malawi: Malawi Post Corporation (MPC) has advised that, owing the grounding of flights into and out of Malawi by its partner airline because of the COVID-19 pandemic, MPC is suspending international mail operations until further notice. MPC is therefore declaring a situation of force majeure. It is unable to guarantee outbound and inbound mail standards for all categories of mail (letter-post and parcel-post items).

Mongolia UPDATE: Mongolia Post has advised that all international flights to and from Ulaanbaatar are suspended until April 30, 2020, or later. Its international mail center will remain closed until May 1, 2020.

Samoa UPDATE: Samoa Post has advised that the suspension of all postal operations has been extended until further notice.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

The following countries have announced service disruptions:

Curaçao: Cpost International N.V. has advised that the Government of Curaçao has suspended all inbound and outbound international flights which is having a direct impact on service quality for both international inbound and outbound services. Cpost International is experiencing significant disruption to its daily operations and is therefore declaring a situation of force majeure and ceasing to accept inbound letter-post and parcel-post items until sufficient transport capacity becomes available. It will continue to provide restricted postal services. This means that it is unable to guarantee delivery standards for letter-post, parcel-post and EMS items. Signatures will no longer be requested for any deliveries, and no proof of delivery can be provided until further notice.

Nepal UPDATE: Nepal Post has advised that the lockdown has been extended until April 15, 2020. These measures have a significant impact on the collection, transmission and delivery of all postal products.

Portugal UPDATE: CTT Correios de Portugal has advised that the state of emergency has been extended until at least April 17, 2020 and additional precautionary measures have been implemented. Registered mail is now deposited in mailboxes, with the exception of registered mail with associated special services. Instead of collecting the recipient’s signature, the mail carrier will ask for the recipient’s name, and will enter this information, followed by “CV19” or “Contingência”, in the signature field on the handheld device. Items subject to a delivery notice are now available for collection at post offices for a period of 15 working days. The situation of force majeure has been extended until further notice. Further, CTT Correios de Portugal is unable to dispatch postal items to many destinations. Please visit www.ctt.pt/transversais/alertas-envio-internacional/utfhtto-table for up-to-date information on the countries concerned.
The Togo Postal Corporation has advised that the Togolese Government has declared a curfew and modified working hours. It has also suspended commercial flights to and from most other countries, restricted movements around Togo and closed land borders, and is promoting social distancing. These various measures will impact the collection, transmission and delivery of mail. Consequently, the Togo Postal Corporation will no longer be able to fulfill its obligations in terms of mail processing standards, or guarantee quality of service for letter-post, parcel-post or EMS items, until the situation returns to normal. It is therefore declaring a case of force majeure for all categories of inbound and outbound mail, though it will carry on providing postal services as far as it is able to.

The DMM Advisory will continue to update mailers regarding new service disruptions as they are received. For a full list of international service disruptions, please visit https://about.usps.com/newsroom/service-alerts/international/welcome.htm

The National Postal Corporation (Iposita) has advised that the Rwandan Government has enforced measures aimed at combating the spread of COVID-19. These measures affect the country's postal services and will remain in force through April 19, 2020. While these restrictions are in force, Iposita will not be able to meet...
its normal obligations in regards to quality standards (e.g. delivery times). All passenger flights to and from Rwanda are suspended and the entire postal network has been shutdown since March 23, 2020. UPDATE 15: International Mail Service Disruptions Due to COVID-19

On April 3, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have suspended certain mail services:

Maldives UPDATE: Maldives Post has advised that the Government of the Maldives has decided to extend the measures adopted as a precaution against the spread of the global coronavirus (COVID-19) pandemic. Therefore, Maldives Post is suspending the processing of all inbound and outbound mail (letter-post, parcel post and EMS items) from March 19, 2020 to April 11, 2020. This will have a major impact on operations and, consequently, on quality of service for all types of mail. The disruption is expected to continue until the epidemic is over. Consequently, service delivery standards cannot be guaranteed, and a situation of force majeure has been declared.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

Until further notice, as a convenience for our customers, the Postal Service will continue to accept and process mail destined for the Maldives. This mail will be held within our network and will be delivered once mail service is restored.

The following countries have announced service disruptions:

Guatemala: The General Directorate of Posts and Telegrams has advised that, as part of government measures to prevent the spread of COVID-19, it is operating with 50% of its normal staff until April 12, 2020 (subject to extension). All post offices have been closed, and only home deliveries are being provided by the reduced staff, with appropriate steps taken to protect employees and customers. These measures will result in delays to deliveries, quality of service for all types of inbound and outbound mails is affected, and service delivery standards cannot be guaranteed. Therefore, the General Directorate of Posts and Telegrams is declaring a situation of force majeure with regard to quality of service until the situation returns to normal.

Italy UPDATE: Poste Italiane has advised that the Italian Government has decided to extend the measures aimed at minimizing the spread of COVID-19 until April 13, 2020.

Mauritius UPDATE: Mauritius Post has advised that the Government of Mauritius has decided to extend the sanitary curfew for at least two more weeks, i.e. until April 15, 2020. All post offices nationwide are closed and all classes of mail will be subject to delays. All inquiries, including those handled electronically through the Internet-based systems for parcel-post, EMS and registered items, are liable to be disrupted. Also, call agents may not be able to deal with telephone inquiries. To eliminate customer interaction at the door and in accordance with physical distancing requirements, Mauritius Post has suspended the collection of a signature on delivery of registered postal items, until further notice. Owing to the suspension and cancellation of many flights to and from Mauritius, severe delays for all outbound and inbound mails (letter-post, parcel-post and EMS) are to be expected until sufficient transport capacity becomes available. Therefore, quality of service for all types of inbound and outbound mail is affected, and service delivery standards, which fall under the already invoked case of force majeure with regard to quality of service, cannot be guaranteed until the situation returns to normal.

South Korea: Korea Post has advised that, owing to the suspension of flights, the processing of outbound mail destined to: Costa Rica, the Dominican Republic, Hawaii (United States of America), Iceland, the Netherlands, Portugal, Qatar, Turkey, Uganda and Zambia has been suspended from April 3 2020 (April 2 in the case of Qatar) until further notice. The current situation will also have repercussions in terms of quality of service for all types of inbound and outbound mail. Korea Post can no longer guarantee quality of service standards. It is therefore declaring a situation of force majeure for all types of postal services in relation to the suspension of outbound mail to the above-mentioned destinations until the situation has returned to normal.

These service disruptions affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIS®), International Priority Armal® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

The following countries have suspended certain mail services:

**Botswana:** BotswanaPost has advised that the President of Botswana has declared a state of emergency from April 2, 2020, until further notice. A lockdown of all the country’s services has been effected, except for essential services. In compliance with the lockdown, BotswanaPost is therefore suspending all international mail operations, including the acceptance and processing of all inbound and outbound letter-post, parcel-post and Express Mail Service (EMS) items until April 30, 2020, or a later date announced by the government.

**Fiji:** Post Fiji Ltd has advised that effective March 23, 2020, all international flights to and from Fiji are suspended until further notice. Post Fiji is therefore, experiencing significant disruption in its daily operations, which has led to suspension of collection and deliveries for all international letter-post, parcel-post and EMS items and services.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

The following countries have announced service disruptions:

**Argentina:** Correo Argentino has implemented health and safety measures to limit the spread of COVID-19. No letter-post, parcel-post or EMS items will require signatures upon delivery. Instead, the mail carrier will ask the addressee for a piece of ID and will record the number in the signature field. Owing to the cancellation of many international flights and diminished transportation capacity, Correo Argentino is unable to transport mail to an increasing number of countries. As a result, it has arranged for mail items addressed to foreign countries to be admitted on a conditional basis. These circumstances will affect the quality of service for all inbound and outbound mail. As such, Correo Argentino, has declared force majeure and will be unable to guarantee delivery service standards (e.g. delivery time).

**Greece UPDATE:** Hellenic Post (ELTA) has advised that, effective March 30, 2020, Hellenic Post will only be able to send — with delays expected due to limited capacity — letter-post and parcel-post items destined to:
- Europe (EU and non-EU countries): Albania, Austria, Belgium, Bulgaria (Rep.), Czech Rep., Denmark, Finland, France, Germany, Great Britain, Hungary, Iceland, Italy, Latvia, Lithuania, Luxembourg, North Macedonia, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Sweden and Switzerland.
- Rest of the world: Canada, Japan and Qatar.

The above list is subject to change on a daily basis. A situation of force majeure is declared and the acceptance of letter-post and parcel-post items destined to all other countries (including the United States) is suspended with immediate effect, until sufficient transport capacity becomes available.

**Japan:** Japan Post has advised that the coronavirus pandemic has caused many countries and territories to take measures such as ceasing to accept inbound international postal items, or significantly reducing or suspending flights to and from Japan. As a result, Japan Post's transportation performance has significantly declined. Therefore, acceptance of international mail items (letter post, parcel post and EMS) by air and S.A.L. for various countries and territories is being temporarily suspended effective April 2, 2020. Further details are provided on the Japan Post website at [www.post.japanpost.jp/int/information/2020/0401_02_en.html](http://www.post.japanpost.jp/int/information/2020/0401_02_en.html).

**Mail:** La Poste du Mali has advised that the Malian Government suspended all commercial flights (other than cargo flights) from affected countries, which will affect postal services. This measure will remain in force until May 8, 2020, and may be extended as necessary. During this time, La Poste du Mali will be unable to meet its contractual obligations, particularly those relating to quality standards.

**Serbia UPDATE:** La Posta sa sajmovine otkrio da su veoma vrijećni problema sa vazduhoplovstvom, iako je bilo novih prijema pošta na cijelu blizu svih destinacija. Trajanje ovih problema zavisi od trenutnog situacije. Tijekom ove godine, pošta će više biti u stanju da prenese određene vrste pošte u drugim destinacijama.

**Thailand:** Thailand Post has advised that a state of emergency has been declared effective from March 26 to April 30, 2020 (or a later date that may be communicated in due course). There may be a severe impact on service quality for international inbound and outbound services, and service delivery standards can no longer be guaranteed. Moreover, owing to the suspension of flights from and to Thailand, the resulting lack of transport capacity, Thailand Post is currently unable to send mail (letter-post, parcel-post and EMS items) to a growing number of countries. Please visit [www.thailandpost.co.th/un/article_detail/article/11/17151](http://www.thailandpost.co.th/un/article_detail/article/11/17151) for up-to-date information on the countries concerned.

**Turkey:** Turkish PTT Corporation has advised that numerous international flights have been cancelled, resulting in a lack of transport capacity. Consequently, Turkish PTT Corporation is declaring a situation of force majeure with immediate effect, and delays are also to be expected for all other inbound and outbound postal items.

These service disruptions affect Priority Mail Express International® (PMEI), Priority Mail International® (PMI), First-Class Mail International® (FCMI), First-Class Package International Service® (FCPIPS®), International Priority AirMail® (IPA®), International Surface Air Lift® (ISAL®), and M-Bag® items.

The following countries have announced service disruptions:

Furthermore, in order to minimize the spread of COVID-19 and protect employees’ health by enabling processing by a single person, only parcels below 25 kg in weight, 120 cm in length and 150 cm for the three dimensions combined can be accepted. Parcels exceeding these weight and size limits will not be accepted until further notice. These restrictions do not apply to donations. Additionally, on March 30, 2020, the Postal Service received notifications from various postal operators regarding changes in international mail services due to the novel coronavirus (COVID-19).

The following countries have suspended certain mail services:

France UPDATE: La Poste has advised that effective March 30, 2020, it will be unable to accept inbound letter-post flows in their entirety for the upcoming weeks, during which there will be four days of reception: Tuesday, Wednesday, Thursday and Friday. Efforts will be focused on urgent flows and the delivery of small packets able to help people during this confinement period. Therefore, La Poste is asking mailers worldwide to defer their non-urgent shipments to later dates to be communicated in due course. The suspension affects imports of international mail at land and sea borders, and at Ramon Villeda Morales Airport in San Pedro Sula and Toncontin Airport in Tegucigalpa. Honducor therefore asks countries that normally send their mail to Honduras by air cargo flights not to do so for the time being to avoid mail being stored in customs warehouses, generating significant extra costs. An exception may be made for humanitarian aid, which Honducor is able to process with the knowledge and prior authorization of the Honduran Government. Honducor asks to be excused from delivery time requirements and compensation for late delivery of postal items until normal operations resume.

Kazakhstan: Kazpost JSC has advised that it has suspended the dispatch of all types of postal items to the following countries; Algeria, Australia, Azerbaijan, Brazil, Canada, Georgia, Hungary, India, Iran, Israel, South Korea, Kyrgyzstan, Malaysia, Moldova, Mongolia, New Zealand, Norway, Pakistan, Philippines, Qatar, Spain, Tajikistan, Turkey, Turkmenistan, United Arab Emirates, United Kingdom and United States of America. (See below for information regarding mail destined to Kazakhstan).

Saudi Arabia UPDATE: Saudi Post Corporation has advised that, owing to the COVID-19 pandemic, the dispatch and receipt of all ordinary and registered letter-post and parcel-post items has been suspended for two weeks beginning Sunday, March 29, 2020. Dispatch and receipt of Express Mail Service (EMS)
items weighing up to 11 pounds (5 kg) will, however, continue. During this time, quality of service, including delivery times and other quality standards, cannot be guaranteed.

Unless otherwise noted, service suspensions to a particular country do not affect delivery of military and diplomatic mail.

Furthermore, as a convenience for our customers, the Postal Service will continue to accept and process mail destined for the aforementioned countries. This mail will be held within our network and will be delivered once mail service is restored.

The following countries have announced service disruptions:

Colombia: Servicios Postales Nacionales S.A. 4-72, has advised that, owing to the emergency resulting from the spread of the novel coronavirus (COVID-19), there will be significant delays in all of its international inbound and outbound letter-post, parcel-post and EMS services.

It is also able to send mail to the following countries: Canada, Hong Kong, Iceland, Iran, Japan, South Korea, Liechtenstein, Norway, Qatar, Russia, Singapore, Switzerland, Turkey, Ukraine, United Kingdom, United States of America and Vietnam. Service availability is subject to change on a daily basis. Please visit www.postnord.dk/en/service-interruptions/how-to-covid-19-affecting-postnord for up-to-date information. Outbound and inbound mail delivery services and other services will be affected.

Kazakhstan: Kazpost JSC has advised that a state of emergency has been declared throughout the country until April 15, 2020 and a quarantine has been imposed in the cities of Nur-Sultan and Almaty in response to the COVID-19 pandemic. Currently, mail deliveries and distribution of newspapers and magazines is carrying on as normal. However, given the imposition of quarantine and the restriction of air and train transportation to and from Nur-Sultan and Almaty, delays in mail delivery to all areas are possible.

Lithuania UPDATE: Lithuania Post has advised that the Government of Lithuania has decided to extend the nationwide quarantine for at least two more weeks – until April 13, 2020 – in order to limit the spread of the novel coronavirus (COVID-19). To eliminate customer interaction at the doorstep, Lithuania Post has suspended the collection of signature on delivery for inbound letter mail items and, wherever possible, is sending parcels to parcel lockers for contact-free collection. Courier items are still delivered to the door, but the four last digits of the recipient’s ID are recorded in place of a signature. For this reason, service delivery standards cannot be guaranteed and Lithuania Post is therefore invoking a situation of force majeure with regard to quality of service, until the situation returns to normal.

Nepal UPDATE: Nepal Post has advised that the Government of Nepal has extended the suspension of all international flights to Nepal until April 15, 2020, and the country is in lockdown until April 7, 2020. Delivery will be conducted via methods that limit human contact, with immediate effect.

Vatican: Poste Vaticane has advised that it will carry on operating and provide its services as far as it is able to. The current situation will have repercussions in terms of quality of service for all types of inward and outward mail. Under these circumstances, Poste Vaticane will no longer be able to guarantee delivery service standards. Owing to insufficient transport capacity following the cancellation of many international flights, Poste Vaticane is currently unable to transport mail (letter-post and parcel-post items) to a growing number of countries. Poste Vaticane is therefore no longer accepting postal destined for the countries concerned until further notice. The list of destination countries affected is liable to change on a daily basis.

A number of measures have been implemented to ensure the safety of both customers and staff, effective until March 30, 2020, these items weighing following:
• Delivery changes: The mail carrier will knock at the door as usual, step back away from the door, and ask for the recipient’s name to record proof of delivery.

In order to minimize human contact and preserve the personal safety of Post PNG’s employees and customers, it has been deemed necessary to take certain preventative measures, including:

- restricting access to postal outlets;
- limiting the processing of all inbound and outbound mail (letter-post, parcel-post and EMS items);
- In order to minimize human contact, it will not be mandatory for to collect and provide written proof of delivery for items that would normally require a signature.

This is expected to remain the case until the end of the pandemic. For this reason, service delivery standards cannot be guaranteed and Post PNG is invoking a situation of force majeure with regard to quality of service, until the situation returns to normal.

Philippines UPDATE: Philippine Postal Corporation (PHLPost) has advised that international air and sea transport from and to international airports and seaports throughout the Philippines would ordinarily require travel during the quarantine period. However, domestic travel is suspended for the duration of the community quarantine imposed in Metro Manila, the rest of Luzon island, and several areas of the Visayas and Mindanao islands. In view of this, the following changes are being made to PHLPost operations for the period of community quarantine (currently scheduled to run until April 12, 2020):

- International mail processing centers will maintain a skeleton workforce in order to accept incoming international dispatches. Inbound items received up to April 12, 2020, will be processed up to that point, owing to the suspension of flights. However, due to the suspension of flights (as from April 13, 2020), there will be no outbound international dispatches from the international mail processing centers from March 17, 2020 until end of the community quarantine.
- Outbound postal items received up to April 12, 2020 by post offices located in areas under community quarantine and in other areas of the Visayas and Mindanao islands will be processed and forwarded to destination countries upon resumption of the normal work schedule (April 13, 2020).

Delays to inbound and outbound postal items are expected during the community quarantine period. Detailed information on the areas covered by the community quarantine will be provided as soon as it is available.

Saint Lucia: Saint Lucia Postal Service has advised that it is currently operating a restricted postal service with reduced hours, reduced personnel and fewer sub-offices, effective Monday, March 23, 2020. This response plan will affect the processing of inbound and outbound mail as well as timely replies to queries.

Senegal: La Poste du Sénégal has advised that measures to close the borders and restrict travel have been implemented by the Government of Senegal and the airlines. These decisions will have a significant impact on shipment and delivery times for letter post, parcel post and packets. Consequently, La Poste du Sénégal is unable to guarantee compliance with delivery standards and is invoking a situation of force majeure with regard to quality of service. La Poste du Sénégal will continue to operate, but it is necessary to declare a situation of force majeure, with immediate effect, until sufficient transport capacity becomes available.

Slovenia: Slovenska Pošta, a. a., has advised that the Slovenian government has introduced measures including self-isolation, social distancing, advising people to work from home and restricting travel. Given these new measures, all inquiries, including those handled electronically through Internet-based systems for parcel-post, EMS, registered and tracked items, are liable to be disrupted. In addition, call agents may be unable to deal with telephone inquiries. Consequently, there may be a severe impact on service quality for international inbound and outbound services and service delivery standards. Slovenska Pošta is therefore invoking the force majeure and analogous provisions of all such standards, until the situation has returned to normal.

Special processes have been put in place for postal items subject to delivery, specifically as follows:

- Parcels that would ordinarily require travel during the quarantine period may now be one time. However, domestic travel is suspended for the duration of the community quarantine imposed in Metro Manila, the rest of Luzon island, and several areas of the Visayas and Mindanao islands. In view of this, the following changes are being made to PHLPost operations for the period of community quarantine (currently scheduled to run until April 12, 2020):

- Delivery of registered items is suspended and will only be notified. These items will be deposited at post offices and the customer will receive a notification (announcement to mailbox, electronic notification sent by e-mail or SMS).
- Slovenska Pošta has also extended by 14 days the current period of 18 days during which postal items will be stored at post offices. Furthermore, in order to comply with wishes to avoid leaving the house, Slovenska Pošta is no longer accepting letter-post, parcel-post and EMS items to an increasing number of countries both within and outside the European Union. Therefore, temporarily, Slovenska Pošta will no longer accept letter-post, parcel-post and EMS items for destinations to which transport capacities are unavailable.

Spain UPDATE: Correos y Telégrafos has advised that, owing to the suspension of flights from and to Spain, and the ensuing lack of transport capacity, it is currently unable to send mail (letter-post, parcel-post and EMS items) to an increasing number of countries both within and outside the European Union. As a result, Correos y Telégrafos is therefore declaring a situation of force majeure and ceasing, with immediate effect, to accept letter-post, parcel-post and EMS items destined for all concerned Union member countries, until sufficient transport capacity becomes available. Moreover, the Spanish Government has extended the “state of alert” that was declared on March 14, 2020, with effect until April 11, 2020, in order to reduce the risk of the spread of the novel coronavirus (COVID-19). The state of alert may yet be extended again. This will have a major impact on operations and, consequently, on quality of service for all types of inbound and outbound letter-post, parcel-post and EMS items.

Switzerland UPDATE: Swiss Post has advised that it has changed its delivery process for all items requiring signature on delivery. Effective March 16, 2020, letter-post, parcel-post and EMS items requiring signature on delivery will not be signed for by the recipient. In place of the recipient’s signature, the delivery agent will enter a code in the signature field of the handheld device. This temporary measure will apply until further notice. As a result, Swiss Post is no longer able to guarantee inbound and outbound mail standards, and is therefore invoking a situation of force majeure with regard to quality of service and remuneration for all categories of mail item (letter-post, parcel-post and EMS items) until further notice.

Turkey UPDATE: Turkish TPT Corporation, has advised a period of leave has been declared for certain parts of its workforce, especially those in high-risk categories, in both the public and private sectors. This will have a major impact on operations and, consequently, on quality of service for all types of inbound mail (letter-post, parcel-post and EMS items). For this reason, service delivery standards cannot be guaranteed and a situation of force majeure has been declared until the situation returns to normal.

Ukraine: Ukrposhta has advised that effective Monday, March 23, 2020, the Government of Ukraine has taken measures to reduce the spread of the novel coronavirus (COVID-19), including the self-quarantine of staff. Delays are to be expected in the delivery of all inbound mail. Severe delays are also to be expected for outbound mail to all destinations, as a result of flight suspensions. Ukrposhta’s national and international operations centers remain open and continue to operate, but it is necessary to declare a situation of force majeure, with immediate effect, until sufficient transport capacity becomes available. In order to minimize human contact, it will not be mandatory for Ukrposhta to collect and provide written proof of delivery for letter-post, parcel-post and EMS items that would normally require a signature.

The following countries have suspended certain mail services:

Bulgaria: Bulgarian Posts plc has advised that it is currently unable to send letter-post, parcel-post or EMS items to many countries inside and outside the European Union, with the list changing on a daily basis. For this reason, Bulgarian Posts has ceased to accept any outbound EMS items destined to international locations. The company will continue to accept letter-post and parcel-post items sent to destinations for which transport capacity is still available. Customers should expect delays for all inbound and outbound mail until further notice.

Cyprus: Cyprus Post has advised that effective Saturday, March 21, 2020; all commercial flights to Cyprus are suspended for 14 days. Cyprus Post is therefore suspending all outgoing dispatches to international destinations. [Note: see below regarding change for mail destined to Cyprus.]

Morocco: Poste Maroc has advised that following the suspension of international commercial air traffic, it is suspending outbound letter-post, parcel-post and EMS items to international destinations until normal flight operations resume. [Note: see below regarding change for mail destined to Morocco.]

As a convenience for our customers, the Postal Service will continue to accept and process mail destined for the aforementioned countries. This mail will be held within our network and will be delivered once mail service is restored.

The following countries have announced service disruptions:

Austria: Österreichische Post AG has advised that it is currently unable to send letters and parcels to a constantly increasing number of countries both within and outside of the European Union due to the suspension of flights from Austria. Therefore, Österreichische Post AG has stopped accepting letter-post and parcel-post items for those destinations to where transportation is unavailable. Delivery standards and times can no longer be guaranteed until the situation has returned to normal. Additionally, all items that require the addressee’s signature are now deposited in the addressee’s mailbox or in a secure location on their premises, with signature by the mail carrier on their portable device. In cases where items are delivered to the recipient in person, the mail carrier will likewise sign on the recipient’s behalf.

Belgium: bpost has advised that operations will continue to operate normally as far as possible. However, several measures have been implemented to ensure the safety of both customers and staff, including the following:
- Post offices will remain open in general, but will be closed on Saturdays;
- For domestic and inbound international items that would normally require a signature, the mail carrier will sign for delivery in place of the customer (but in the customer’s presence);
- bpost is no longer able to guarantee delivery times, standard rules for signature on delivery, or availability of tracking data for shipments.

Furthermore, in common with many other postal operators, given the diminishing number of flights and reduced capacity, bpost is temporarily unable to send outbound international mail and parcels (letter post, parcel post and EMS) to destinations outside Europe.

Cyprus: Cyprus Post has advised that effective Saturday, March 21, 2020; all commercial flights to Cyprus are suspended for 14 days. Therefore, until further notice, all letter-post, parcel-post and EMS items destined to Cyprus will be sent by alternative transportation (e.g. surface). Customers should expect delivery delays.

Djibouti: La Poste has advised that Djibouti has suspended all international flights arriving in and departing from Djibouti, with the exception of cargo flights, until further notice. Therefore, delays are expected in the handling and delivery of letter-post, parcel-post and EMS items, until sufficient transport capacity becomes available.

Finland: Posti and Åland Post have advised that owing to a lack of transport capacity, they are currently unable to transport outbound letter-post, parcel-post and EMS items to many international destinations. Effective March 18, 2020, Posti and Åland Post will only be able to transport letter-post, parcel-post and EMS items destined for the countries listed below, with delays to be expected owing to limited capacity:
- All EU countries, with the exception of Cyprus, Greece, Ireland, Malta, Slovakia and Spain;
- Australia, Canada, China (People’s Rep.), Israel, Japan, Norway, Russian Federation, Serbia, Switzerland, United Kingdom and United States of America.

France: La Poste has advised that the French Government has reinforced the measures in place to limit the spread of COVID-19. La Poste’s network and national and international operational centres remain open and continue to operate. However, given the reduced workforce, La Poste can no longer guarantee delivery lead times, the collection of signatures on delivery, delivery to the addressee in person, tracking of items (scanning and shipping lead times), the processing of items for reimbursement, and insured items. This concerns in particular registered letters, tracked small packets with signature, parcels and EMS items. Additionally, numerous post offices are closed, and the opening hours of those remaining open have been reduced.

Georgia: Georgian Post has advised that the Government of Georgia has taken measures to reduce the spread of COVID-19. As these measures include the self-quarantine of staff, significant delays are to be expected in the delivery of all inbound letter-post, parcel-post and EMS items. Severe delays are also to be expected for outbound mail to all destinations, as a result of flight suspensions. Indirect delivery methods will be implemented temporarily for letter-post, parcel-post and EMS items that would ordinarily require the addressee’s signature. Consequently, it will not be mandatory for Georgian Post to collect and provide written proof of delivery.

Liechtenstein: Liechtensteinische Post has advised that all letter-post, parcel-post and EMS items requiring a signature upon delivery are no longer being signed when handed over to the addressee. For such items, the mail carrier will leave a note in the signature field of the handheld device. This temporary measure will apply until further notice.

Mauritius: Mauritius Post has advised that all post offices are closed until 2 April 2020. As a result, severe delays are to be expected in the processing, transport and delivery of both inbound and outbound letter-post, parcel-post and EMS items due to the suspension of postal services and various flight cancellations. Moreover, signature on delivery will no longer be required at the time delivery is made. Instead, the mail carrier will ask the recipient’s name and will record it on the delivery receipt.

Mexico: Correos de México has advised that, owing to the cancellation of international flights it is facing significant disruption to its operations. Until further notice, only services to Canada and the United States of America will be maintained. Customers should expect delivery delays.

Morocco: Poste Maroc has advised that inbound mail has been processed and delivered as normal. However, delivery services may suffer certain delays, because of limited staff in processing and delivery centers. Postal parcels, EMS items and registered mail are being delivered without the addressee’s signature being requested. For such items, the mail carrier will add the addressee for their identity card number and record it. This exceptional March 17, 2020, and will remain in effect until further notice.

New Caledonia: OPT–NC has advised that owing to the reduction in the number of flights offered by partner airlines, and new measures to protect against the spread of COVID-19, the shipment of inbound and outbound letter-post, parcel-post and EMS items is currently limited to mainland France only. OPT–NC is ceasing to accept any mail originating from other Union member countries with immediate effect. The U.S. Postal Service (USPS) will be temporarily suspending the guarantee on Priority Mail Express International (PMEI) destined for China and Hong Kong, effective Monday, Feb. 10, 2020, due to widespread airline cancellations and restrictions into this area.
